FINGERPRINT TAKEN

J. J. Faurot Advocates Process Even for Newly Born Infants.

VISITING POLICE

New York's Force Pose Stunts for Colleagues From Other Cities.

There really is no limit to the hospitality of the New York Police Department. It is entertaining this week twelve score chiefs and superintendents of police from 1% other American cities. Many of them think they are rather clever, and that, except in the regulation of traffic by electric flashes and a few other little things, the big town hasn't such a lot to show them.

So the New York police are going to let a party of them crack a safe in their most expert manner before the end of the week, just to prove they can't get away with it. The identity of the bluecoat yeggmen chosen for the job is to be kept a profound secret, but after they have pawed over the strong box sufficiently to leave a few clues the New York police promise to spot the guilty chief or superintendent and to clap the bracelets on him almost instanter.

This little practical experiment in up

and to clap the bracelets on him almost instanter.

This little practical experiment in up to the minute crime detection was agreed upon yesterday as a sequel to the paper read in the National Police Conference by Third Deputy Commissioner Joseph A. Faurot on "Criminal Identification: Its Failures and the Remedies Therefor." Before the convention's adjournment on Saturday every one of the visiting delegates is to be finger printed just as though he were a common crook, a graduate Raffles or any other old offender. The twelve score fingerprint cards then will be taken over by the metropolitan "bulls."

Some gentlemanly police chief from

be taken over by the metropolitan "bulls."

Some gentlemanly police chief from Chicago or Boston, or from some other complaisant community will be secretly chosen for the job by a small committee and the honored delegate then will slink forth and crack a crib. Commissioner Faurot promises that within twenty-four hours the amateur cracksman will be identified and "pinched" and his shame will be proclaimed 'other assembled conference.

Mr. Faurot strongly advocated universal fingerprinting. He would have the operation performed not only upon all immigrants admitted to this country, but even upon all newly born bables, as in the case of infants, he thinks, it would ald materially in locating such of them as may become lost, strayed or stolen. Also it would help to differentiate one twin from the other. He thinks fingerprinting should be an even more popular function than christening or vaccination. There should be also, he argued, a central bureau in Washington where the fingerprints of all citizens should be kept on record for reference. The old Bertillon system, the Commissioner declared, already is outgrown and obsolete.

Dr. Frank L. Christian, superintendent of the New York State Reforma-

Dr. Frank L. Christian, superintendent of the New York State Reformatory, and John S. Kennedy, president of the State Prison Commission, spoke on "Cooperation Between Police and Prison Authorities."

"Traffic Progress" was the thems of

Authorities."
"Traffic Progress" was the theme of an address by Special Deputy Commissioner John A. Harriss.
The conference was entertained at luncheon in the Hotel Astor by the Broadway Association, its president, Col. Jefferson Demont Thompson, presiding. The speakers were Commissioner Enright, Dr. Harriss and Frederick A. Wallis, Commissioner of Immigration.

BOUGHT STOCK AT \$2.98; SOLD FOR \$10: INDICTED

Wall Street Firm Charged With False Statements.

Rhode B. Gregory and his brother, John N. Gregory, of Durell, Gregory & Co., Inc., investment brokers of 72 Wall street, entered tentative pless of not gullty when arraigned yesterday before Judge Learned Hand in the Federal Dis-trict Court, charged with engaging in a conspiracy to use the mails to defraud. conspiracy to use the mails to defraud. The indictment charges them with defrauding investors in the stock of the American Tire Corporation, a Delaware concern, with an authorized capitalization of \$5,500,000. Bail for the two who pleaded yesterday was fixed at \$10,000. In addition to the Gregorys, about seventy stock salesmen of this city, Buffalo, New Haven, Boston and Springfield are named as occonspirators. It salleged that stock bought for an average of \$2.98 was sold under false representations by the firm for \$10 per share.

COP AND 4 OTHER MEN HELD ON TWO CHARGES

Case in Newark Involved in Frank Walsh Slaying.

Philip H. Kuil, a Newark police sergeant, and four other men, two of whom are out on bail in connection with the slaying, several months ago, of Frank Walsh, alleged bootlegger, were arraigned yesterday before Police Judge Boetiner, in Newark, accused of breaking and entering with intent to steal and of conspiracy to steal. All were released in \$2,500 bail each for a further hearing. Kuil was suspended from the police force.

ing. Kull was suspended from the police force.

Kull appeared in court as the arresting officer of the four other prisoners, but the charge made him a party to the alleged crime, which consisted of breaking into a garage in the rear of a Newark saloon, where a quantity of whiskey was said to be stored. Mrs. Fannie Stern, wife of the saloon keeper, preferred the charge of conspiracy to steal, and Mrs. Josephine Bergamo, the garage keeper's wife, the charge of breaking and entering with intent to steal.

BALLOT INSPECTORS CALLED.

Brooklyn Officials to Be Asked About Damaged Boxes.

About Damaged Boxes.

The Board of Elections announced yestervlay that it had summoned Capt. Louis Ereuscher of the Bedford avenue station, and several election inspectors of the Fourteenth Assembly District in Brooklyn to appear before the board to-morrow morning and explain how the ballot boxes came to be damaged, as Senator A. L. Catlin alleges that the boxes were tampered with after the election. Capt. Kreuscher says the boxes were sealed and locked in a room at the police station and were not in his charge.

GAS TO RISE IN BROOKLYN. ALBANT, May 4.—The Brooklyn Berough Gas Company was authorized by the Public Service Commission to-day to increase its charge for gas, on and after May 6 to August 31, 1921, to \$1.50 per 1,000 feet. This action was taken, it was stated, after the statute fixing a limit of \$6 cents per thousand feet had been declared by the courts to be confiscatory.

Continued from First Page.

Continued from First Page.

of Shipping Board regardless of prior service."

The adoption of these war measures was construed as further proof that the Shipping Board and the private companies which operate its ships, including 136 vessels now in New York Harbor, were ready to fight the unions to a finish. An opinion voiced at the meeting of the operators was that the delay of a day or so in the departure of ships made no difference. The important fact was that they were actually getting away and that the crowing of the unions over a victory in the first round would begin hadn't budged up to midnight.

Shipping Board agents reported that three applicants for Jobs at the board's sea service bureau, 25 Park place, were cover a victory in the first round would

Ask him how vaccination today differs

portation Company, the Shipping Board freighter Edistro, the tanker J. M. Dan-ziger of the Pan-American Petroleum and Transportation Company and the Georgiana Weems, a small freighter of the Halshaw Steamship Company, Balti-more

was that they were actually getting away and that the crowing of the unions over a victory in the first round would soon be proved premature.

Marine engineers here said yesterday that the union officers in Washington had ordered their members on tugboats not to handle "unfair ships," which was construed to mean ships not manned by union crews at the old wage. The effect of this manosuvre is not apparent thus far.

The ships reported up to midnight as actually sailing yesterday were the Hamilton of the Old Dominion Transstill a captive at last account.

Ask Your Doctor **These Questions** About Vaccination effect when introduced into the blood.

from the form of vaccination adopted by Jenner. Ask him if he can guarantee that the virus is "pure," or in other words if he can guarantee that when intecting your blood with vaccine virus, he will not also introduce infection of other types at the same time. Ask him what are the smallpox mortality statistics in vaccinated countries as contrasted with unvaccinated countries. Ask him why it is that typhus, plague, yellow fever, typhoid and other diseases respond to sanitary and hygienic measures, while the incidence of smallpox is reduced only by vaccination? If he answers in vague generalities then tell him a few of the facts presented in the article

"Vaccination Killed My Two Sisters" By Dr. G. W. Desbrow

in the MAY Issue of Physical Culture

If you read this article and continue to believe blindly in vaccination without investigating the truth or falsity of the statements made therein, you are doing society an injustice.

If after proving the truth or these statements, you continue to advocate

of all the beautiful women who have ruled the hearts of men throughout the ages fade into insignificance when one mentions the im mortal Queen of Sheba, she who, through all the centuries, rises before us always as the visualization of the most beautiful woman the world has ever known. Queen of Sheba, of Araby, the blessed, daughter of a hundred kings, she ruled the hearts of men and was impervious to the appeals of all until finally she met the supreme love which dominated

her life, the great King Solomon. Here in opulent splendor, with the gorgeousness and glory of the ancient Orient as its background, has been screened this greatest of love stories—"The Queen of Sheba"—produced by William Fox and directed by the master genius of the screen, J. Gordon Edwards.

"The Queen of Sheba" is presented twice daily at the Lyric Theatre, West 42d St. The world's greatest motion picture. Fourth enormous week.
